SUMMARY

My name is **Avram Alin Ioan**, I'm **21 years old**, and I live in Bucharest, Sector 4. I'm a **final-year student** at the **Faculty of Cybernetics, Statistics, and Economic Informatics**, specializing in **Economic Informatics**, with a strong passion for programming and IT. I constantly seek to expand my knowledge and improve my skills.

I am looking for **opportunities as a Software Developer**—whether **internship, part-time, or full-time**—to **grow** both **technically** and **professionally**. I thrive in collaborative environments and look forward to working with like-minded professionals.

EXPERIENCE

- **Erasmus+** project "**INFORBOTICS**" held in Spain, Granada. I delved into **MicroPython** technology by developing a remote-controlled car from scratch as part of a team. I was responsible for the **software** part.
- **Oracle Course "Database Design and Programming with SQL"**
- **Oracle Course "Database Programming with PL/SQL"**
- Cambridge **CAE("Advanced Certificate in English")** obtained with the highest score.
- Tools: **VSCode, Android Studio, Eclipse, Visual Studio, SQL Developer, PyCharm, IntelliJ, GIT**

PERSONAL PROJECTS

- **TheMovieDrawer**. A **React Native app** for **IOS** and **Android** that lets users **create, manage, and organize** custom **movie lists**. It uses **React Navigation** for navigation, **Context API** for state management, **Firebase** for the **database**, and **fetches movie data** from the **TMDB API**.
- **University Dissertation Collaboration Platform**. A platform where students can **request collaborations** with professors. Professors can accept multiple students, review their papers, sign them, and send them back. Built with **JavaScript** using **React** for the **frontend**, **Node.js** for the **backend**, and **MariaDB** for the **database**.
- **React Native Expenses App**. The app allows users to **track their expenses efficiently** while ensuring a **smooth and modern UI**. It integrates **React Navigation**, handles **user input** with **proper validations**, manages global state using **Context API**, and stores data persistently in **Firebase Realtime Database**.

HOBBIES

- **Vocalist and guitarist** in the Blues/Pop Rock band "The New Blackjack"
- I collect vinyl records and CDs.
- Passionate about sports and fitness.
